Judy Thomas has been an active volunteer with the Susan G. Komen South Florida Affiliate for about two years now. This fall, we were pleased to honor her with the Outstanding New Volunteer award at our annual In the Pink Volunteer Recognition Event for our Phenomenal Volunteers.

Initially, Judy helped out in our West Palm Beach location with office tasks. Her computer skills, organizational strengths and buoyant personality enhanced our efforts to accomplish the Komen mission. Later, when Judy returned to work full-time, she demonstrated her continued commitment and used her event marketing background to successfully represent Komen at numerous health and community fairs.

Like Ambassador Brinker, Judy is motivated to serve and promote early detection and screening. With several breast cancer survivors in her immediate family, Judy shares not only her time and talent, but her own personal stories. Her experiences clearly fuel her compassion and passion for the cure, and enable her to connect in meaningful ways while volunteering.

She also participates in our annual Race for the Cure fundraising event, and in 2013 was selected for the Pink Honor Roll for her Race for the Cure fundraising achievements.

Sincerely,

A handwritten signature in black ink that reads "Lisa Hartstein".

Lisa Hartstein, M.H.S.
Director of Mission Initiatives

Passion in Action...From Care to Cure
